Revise the following conditions:

Condition E15:

Gravel surfaces of the storage yard shall be kept watered to reduce dust generation during operations or other method as approved by the City. If dust control cannot be maintained, then the site shall be paved and kept in a dust free state with daily sweeping. This will require the preparation of a Water Quality Control Plan in compliance with the latest Regional Permit subject to approval by the City. The applicant shall submit the proposed plan and Water Quality Technical Report (WQTR) to the City for review and approval prior to issuance of building permit.
