IF YOU WRITE, ATTACH THE
STUB AT THE END OF THIS NOTICE.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 82-1884631. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

When you submitted your application for an EIN, you checked the box indicating you are a non-profit organization. Assigning an EIN does not grant tax-exempt status to non-profit organizations. Publication 557, Tax-Exempt Status for Your Organization, has details on the application process, as well as information on returns you may need to file. To apply for recognition of tax-exempt status under Internal Revenue Code Section 501(c)(3), organizations must complete a Form 1023-series application for recognition. All other entities should file Form 1024 if they want to request recognition under Section 501(a).

Nearly all organizations claiming tax-exempt status must file a Form 990-series annual information return (Form 990, 990-EZ, or 990-PF) or notice (Form 990-N) beginning with the year they legally form, even if they have not yet applied for or received recognition of tax-exempt status.

Unless a filing exception applies to you (search www.irs.gov for Annual Exempt Organization Return: Who Must File), you will lose your tax-exempt status if you fail to file a required return or notice for three consecutive years. We start calculating this three-year period from the tax year we assigned the EIN to you. If that first tax year isn't a full twelve months, you're still responsible for submitting a return for that year. If you didn't legally form in the same tax year in which you obtained your EIN, contact us at the phone number or address listed at the top of this letter.

For the most current information on your filing requirements and other important information, visit www.irs.gov/charities.

IMPORTANT REMINDERS:

- * Keep a copy of this notice in your permanent records. **This notice is issued only one time and the IRS will not be able to generate a duplicate copy for you.** You may give a copy of this document to anyone asking for proof of your EIN.
- * Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.
- * Refer to this EIN on your tax-related correspondence and documents.
- * Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is GBEF. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.

Keep this part for your records.

Project Name: NCHS San Marcos Health Center VFC-rated Refrigerator Date Submitted: June 5, 2017	Total # of people served: 64,720 Total # of San Marcos residents served: 32,369	Amount Requested: \$ 2,828.22
Non-Profit Organization Name and Address, Website North County Health Services (NCHS) 150 Valpreda Road San Marcos, CA 92069 www.nchs-health.org		Contact Person – Name, Title & Phone, email Alta Farley Grant Writer (760) 736-8723 Alta.farley@nchs-health.org
<u>Briefly</u> describe your request for funds (to be expanded upon in narrative for regular grant): NCHS respectfully requests a \$2,828.22 grant to purchase a new, VFC-rated vaccine refrigerator for NCHS San Marcos Health Center, which is now serving 18% more residents than just two years ago. Therefore, an additional pharmacy-grade refrigerator is needed to increase our capacity to store vaccines and other biologics at an even temperature range while the unit doors are opened and closed throughout each clinical day. The unit will be large enough to hold inventory needed during the busiest point in the year without crowding, such as during the fall flu vaccine season. This San Marcos Community Foundation grant will have long lasting impact over many years, helping NCHS to build capacity to function at higher levels of care and efficiency.		
<u>Briefly</u> describe the significance of your request to the San Marcos community: A grant from San Marcos Community Foundation will increase NCHS' capacity to provide ample, appropriate and secure storage for almost 16,000 vaccines and numerous medications administered annually at NCHS San Marcos Health Center (over 65/day). These biologics provide vital preventive health for San Marcos' primarily working poor individuals and families. Properly stored and handled vaccines play a strong role in keeping San Marcos residents healthy. From childhood vaccines for mumps, measles and rubella to pneumonia and shingles vaccines for seniors, NCHS provides critical preventive medicine for San Marcos' primarily low- and extremely low-income residents. NCHS' wide array of safety net services provide high quality medical, dental, and behavioral health services to prevent more severe conditions, spread of disease, loss of days from school and work, and the over-use of emergency rooms.

North County Health Project, Inc. Proposal

to San Marcos Community Foundation

ORGANIZATION INFORMATION: North County Health Project, Inc., aka North County Health Services (NCHS) is a Federally Qualified Health Center dedicated to providing caring, affordable, quality health care and supportive services to everyone, with a special commitment to uninsured, low-income, and medically underserved populations. From a single clinic founded by community activists in 1971, NCHS has grown to 12 health centers located in northern San Diego and southwestern Riverside Counties, which provide adult, adolescent and pediatric primary care, internal medicine, acute same-day care, oral health, behavioral health, specialized women's health, chiropractic services, radiology, lab, and a full range of enabling services, such as transportation, language interpretation, and assistance applying for and utilizing Medical/Covered California/WIC/CalFresh benefits. NCHS also operates two mobile medical/dental units that provide medical and dental services for more than 3,000 schoolchildren, 6,500 farm workers and family members, and other residents with significant access barriers. NCHS' **mission** is *"to improve the health status of our diverse communities by providing quality healthcare that is comprehensive, affordable, and culturally sensitive."*

Keeping our patients top of mind in our pursuit to advance health and wellness in our community has, and always will be our top priority.

In addition to clinical services, NCHS has a wide range of programs in North County that focus on early prevention to maximize health outcomes. NCHS' WIC (Women, Infants and Children supplemental nutrition program) serves almost 11,000 women and children monthly. All Star Teeth provides dental screenings for children 18 months to 12 years old, and helps their parents establish a dental/medical home at NCHS. Through NCHS' Family Nutrition Program, Registered Dietitians provide nutrition education and training for families with young children to form good nutritional habits from an early age. NCHS also conducts extensive outreach and free health fairs in the community.

NCHS holds the National Committee for Quality Assurance's prestigious Patient-Centered Medical Home (PCMH) highest level 3 recognition. This distinction recognizes long-term patient relationships, and continued improvements to quality and efficiency of care.

Based in San Marcos, NCHS has served San Marcos residents since 1976. NCHS' two San Marcos locations served 32,369 patients (126,311 visits) in 2016, which is an 18% increase in patient visits in just two years. Ninety-seven percent (97%) of patients who reported incomes were at or below 200% of the federal poverty level (FPL); 72% were below the FPL. Patients identified themselves as 68% Hispanic, 25% White, 3% Asian, 1% African American, and 3% other or mixed race; 39% of patients were children aged 19 and under. Patients are not turned away due to their level of ability to pay for services.

The proposed project supports NCHS' 2016-2018 Strategic Plan Goals, which are to continue to: 1) Create a patient experience that is accessible, convenient and attractive to a diverse population; 2) Increase the number of patients and territories served and develop a comprehensive array of services, and; 3) Provide patients with an integrated and holistic service experience through internal service coordination and new community partnerships.

North County Health Project, Inc. Proposal

to San Marcos Community Foundation

PROJECT: Pharmacy Grade Vaccine Refrigerator for NCHS San Marcos Health Center
North County Health Services respectfully requests a \$2,828.22 grant from the San Marcos Community Foundation to purchase a new vaccine refrigerator to expand existing storage for NCHS San Marcos Health Center.

NCHS San Marcos Health Center is now serving 18% more residents than just two years ago and therefore, needs to increase capacity to provide health services, which includes medications and vaccines.

Vaccines play a vital role in preventive medicine. They have made serious diseases like Measles, Mumps, Polio, Hepatitis A & B and Tetanus uncommon. A major immunization issue is appropriate storage and handling. Exposing stored vaccines and other medications (biologics) above or below the recommended temperature ranges can result when overcrowding existing refrigerator space. A change in temperature can decrease potency and reduce the effectiveness and protection they provide. Storage errors can cost thousands of dollars in wasted vaccine and revaccination, as well as loss of patient confidence when repeat doses are required. It is better to not vaccinate than to administer a dose of vaccine that has been mishandled. By adhering to newer Centers for Disease Control requirements for storing and handling vaccines, physicians and clinical staff can ensure that patients will get the full benefit of the vaccines they receive.

Through this project, NCHS will add another Pharmacy Grade, VFC-rated (Vaccines for Children) refrigerator that meets Centers for Disease Control standards at San Marcos Health Center. This new unit will increase our capacity to store vaccines and biologics needed for adults, pediatrics, women's health, and QuickCare at NCHS San Marcos Health Center. This new refrigerator will meet Centers for Disease Control requirements and will be able to maintain an even temperature range while the unit doors are opened and closed throughout each clinical day, and throughout the year. The refrigerator will be dedicated to the storage of biologics, including test specimens, and large enough to hold inventory needed during the busiest point in the year without crowding, such as during fall flu vaccine season. The refrigerator will feature an external, programmable thermostat with a temperature display. The thermostat includes an alarm that sounds when the temperature has gone outside of the programmed temperature range. The refrigerator includes a factory installed side mounted lock to secure important content from unauthorized handlers.

PROJECT BENEFITS: A grant from San Marcos Community Foundation will increase NCHS' capacity to provide ample, appropriate and secure storage for almost 16,000 vaccines and an untold number of medications administered annually at NCHS San Marcos Health Center, which is well over 65 per day. Properly stored and handled biologics will play a strong role in keeping San Marcos' primarily low- and extremely low-income residents healthy.

Without NCHS' wide array of safety net services, San Marcos' low-income residents might go without crucial preventive care, leading to more severe conditions. This can cause further spread of disease and contribute to days lost from school and work. Enabling NCHS to increase capacity to provide vaccines and medications and thus, prevent avoidable conditions will lead to a healthier community overall.

Dear Taxpayer:

This is in response to your Sep. 06, 2011, request for information regarding your tax-exempt status.

Our records indicate that you were recognized as exempt under section 501(c)(3) of the Internal Revenue Code in a determination letter issued in July, 1973.

Our records also indicate that you are not a private foundation within the meaning of section 509(a) of the Code because you are described in section(s) 509(a)(1) and 170(b)(1)(A)(vi).

Donors may deduct contributions to you as provided in section 170 of the Code. Bequests, legacies, devises, transfers, or gifts to you or for your use are deductible for Federal estate and gift tax purposes if they meet the applicable provisions of sections 2055, 2106, and 2522 of the Code.

Please refer to our website www.irs.gov/eo for information regarding filing requirements. Specifically, section 6033(j) of the Code provides that failure to file an annual information return for three consecutive years results in revocation of tax-exempt status as of the filing due date of the third return for organizations required to file. We will publish a list of organizations whose tax-exempt status was revoked under section 6033(j) of the Code on our website beginning in early 2011.

Purpose: Charitable
Form of Organization: Corporation
Accounting Period Ending: August 31
Organization Number: 676146

Gentlemen:

Based on the information submitted and provided your present operations continue unchanged or conform to those proposed in your application, you are exempt from State franchise or income tax under Section 2370ld, Revenue and Taxation Code. Any change in operation, character or purpose of the organization must be reported immediately to this office so that we may determine the effect on your exempt status. Any change of name or address also must be reported.

You are required to file Form 199 (Exempt Organization Annual Information Return) or Form 199B (Exempt Organization Annual Information Statement) on or before the 15th day of the 5th month (4-1/2 months) after the close of your accounting period. See annual instructions with forms for requirements.

You are not required to file state franchise or income tax returns unless you have income subject to the unrelated business income tax under Section 2373l of the Code. In this event, you are required to file Form 109 (Exempt Organization Business Income Tax Return) by the 15th day of the 3rd month (2-1/2 months) after the close of your annual accounting period.

Contributions made to you are deductible by donors as provided by Sections 17214 through 17216.2 and 24357 through 24359 of the Code, unless your purpose is testing for Public Safety.

If the organization is incorporating or is a foreign corporation qualifying to do business in California, this approval will expire unless incorporation or qualification is completed within 30 days.

Exemption from federal income or other taxes and other state taxes requires separate applications.

To Whom It may Concern:

I am a parent of two Mission Hills High School track and field athletes. My son, Elijah runs the 110 hurdles. He ran an undefeated season under the coaching of Shawn Coleman. Not only has my son developed as an amazing runner, but the other character traits he has learned will last a lifetime. My daughter, Faith was a freshman this year. She excelled in her events as well. Through her determination and strong work ethic, she was moved up to varsity where she excelled. Shawn Coleman and his staff know every one of our athletes. There are well over 100. My children have made life-long friends in this sport. They are surrounded by positive influences from coaches and their peers. The track and field team has the cumulative highest GPAs of any Mission Hills sport. The coaching staff teaches determination, pride in our school and community, and how to be a good team mate. Our coaches ensure that every athlete feels appreciated on the team. He treats all of the athletes the same regardless of their ability. He recognizes that not every student, has the same ability, but they all have some ability. Even if it is being the most positive, that is still a very valuable asset to team. As a resident of San Marcos, we are lucky to have the amazing coaching staff that brought us to a League title. For that, we are proud and grateful.

Sincerely,

Paul Balancio

Mission Hills High School Track and Field's mission is to provide a nurturing environment where athletes learn a commitment to health, perseverance, and building strong character. Mission Hills High School has 2,500 students, with over 140 participating in track and field. Our students and athletes come from diverse backgrounds. Our track and field program does not discriminate based on gender, race, sexual orientation or ability. It is open to all athletes who attend the high school who are committed to practicing their sport. It is a no cut sport which means it is inclusive of all students. As well as learning to have a life-long passion for fitness, high school sports build character, teach dedication, how to be a team player, and how to win and lose gracefully. These are lessons that will help them as adults in their jobs and relationships. Our 2017 Boys track and field team won the Avocado East League title and boasted ten Avocado East champions. Mission Hills was represented at California Interscholastic Federation in every event except one. In addition, six of our athletes qualified to compete in the State meet.

The statistics are overwhelming for how much more successful high school athletes are than non-athletes. According to the Women's Sports Foundation, female athletes are 92% less likely to get involved with drugs, 80% less likely to get pregnant, and three times more likely to graduate high school than non-athletes. For boys, they are two times more likely to graduate than non-athletes. Student athletes score better on standardized tests, and get better grades. This may be attributed to the fact that vigorous exercise improves blood flow to the brain which results in better alertness, and intellectual functions. A study conducted in the Los Angeles Unified School District showed that there is a positive connection with attendance, and grade point average. Athletes spent an average of three more weeks in school per year. Also the grade point average was .55-.74 points higher. This could be because a minimum GPA is required to play sports. Whatever the reason higher attendance and higher grades are a great result for involvement in sports. Research has proven that high school sports have a favorable influence on academics, deter criminal activity, and improve self-esteem for those involved.

Unfortunately, the San Marcos Unified School District is unable to cover all of the expenses involved in running a track and field program. Mission Hills High School has 54% of the student body that is socially and economically disadvantaged. For some athletes, contributing to meet fees, uniforms or replacing hurdles, is not a possibility. Therefore, raising funds and seeking outside resources has become a necessity. The expenses involved are meet fees/invitationals, uniforms, coaching stipends, and replacing equipment. Mission Hills is now 13 years old, although relatively new, track and field equipment does not hold up that long. Last year, many of our hurdles broke, and are not useable. We are requesting funds to buy some new hurdles to replace the broken ones. High School sports are the reason many teens go to school. It is imperative, that we continue to allow our future leaders reap the many benefits sports have to offer.

Briefly describe your request for funds (to be expanded upon in narrative for regular grant):

Kitchens for Good (KFG) requests \$10,000 in funding from San Marcos Community Foundation to support kitchen equipment for its expansion to a second kitchen and culinary training center in San Marcos (215 Bingham Drive). KFG is a nonprofit 501(c)(3) with the mission to break the cycles of food waste, poverty, and hunger through innovative programs in workforce training, healthy food production, and social enterprise. KFG builds a bridge to close the gap between wasted food and hunger by rescuing and purchasing surplus food from wholesalers and farmers, and then engaging students in its culinary job training program to transform these ingredients into nutritious meals and products for hungry families.

Briefly describe the significance of your request to the San Marcos community:

As KFG continues to strive to meet community needs, it is clear that our current 2,500 sq. ft. kitchen at in Southeast San Diego is at capacity. The acquisition of a second 19,000 sq. ft. kitchen and training space will help us expand our workforce development, food rescue, and meal production programs to reach North County residents struggling with poverty and hunger. This program also serves the culinary and hospitality industry that is the second largest economic sector in the region, and in great need of employees to staff its expected growth. With this new project, we aspire to meet the demands of job growth and skills gap in North County, tackle hunger, and be a model for social innovation.

Project Title: San Marcos Kitchen for Good

Organization: Kitchens for Good

Project Contact: Sonia Diaz, Development Coordinator (sonia@kitchensforgood.org)

Kitchens for Good (KFG) is seeking support of \$10,000 from San Marcos Community Foundation for kitchen equipment associated with the expansion to a San Marcos food production and culinary workforce training facility. This project is very much aligned with the goals of your foundation, which seek to enrich the quality of life, health and well-being and economic opportunities for the residents of San Marcos.

KFG is a nonprofit 501(c)(3) with the mission to break the cycles of food waste, poverty and hunger through innovative programs in workforce training, healthy food production and social enterprise. KFG builds a bridge to close the gap between wasted food and hunger by rescuing and purchasing surplus food from wholesalers and farmers, and then engaging students in its culinary job training program to transform these ingredients into nutritious meals and products for hungry families. In addition to tackling issues of food waste, hunger and unemployment, Kitchens for Good operates a profitable food and catering enterprise that creates job training opportunities for culinary students, and generates profits to reinvest into social programs.

In the past 18 months, KFG has:

- Trained 102 people, previously seen as “unemployable,” for living wage jobs in the culinary industry, achieving a 90% employment rate upon graduation, and earning an average wage of \$13/hour. Half of the graduates have received a raise within the first three months of employment.
- Rescued 31,117 pounds of surplus food and turned it into 28,230 nutritious meals for the homeless, at-risk youth, and homebound seniors.
- Leveraged start-up support into \$2 million in earned social enterprise income through 739 catered events.

As KFG strives to meet the growing need, one thing has become clear: the current 2,500 sq. ft. kitchen in Southeast San Diego is simply not large enough to serve the needs of the growing homeless population, low-income families and veterans in San Diego. In 2018, KFG plans to open a second kitchen with more classroom space to increase our reach and meet this demand. KFG is seeking support from San Marcos Community Foundation for this kitchen expansion, which will dramatically expand program capacity and impact to reach up to 1500 San Marcos residents a year.

The beneficiaries of the new kitchen will be community-based organizations of San Marcos and surrounding cities that serve the homeless, low-income families and homebound seniors. The culinary training program will recruit populations that were previously seen as unemployable – formerly incarcerated adults, foster youth transitioning out of the system and veterans--three

populations that are experiencing significantly high unemployment rates in the San Marcos region. The program teaches students technical culinary techniques and workforce readiness skills, provides industry certification, and continual support through job placement services and case management.

The new kitchen is also designed to generate revenue to support its programs. The expansion of KFG's social enterprise to include a bakery and cafe will attract the general public to eat at our facility and become aware of our mission and build a base of support to fight poverty and hunger.

The annual anticipated outcomes and benefits to the community through this expansion project include:

- **Increase student enrollment in the culinary program to 200.**
- **Increase meal production for the hungry to 260,000 meals.**
- **Increase pounds of food rescued to 500,000 lbs.**
- **Increase social enterprise revenue to \$4.5M to sustain hunger relief and job training program.**

KFG has already secured the space for the expansion project and it is currently in escrow. It is anticipated that permitting, renovations, and equipment will be in place by September 2017, allowing programs and operations to fully launch by January 2018.

The total capital project cost is \$3,900,000, which includes the cost of the building, construction and renovations. Most of the project funds have been secured (73.5%) from individual donations and foundations, including Leichtag Foundation, who has invested \$2.7 million toward the purchase of the facility. Another \$540,000 in funding is pending from proposals that have already been submitted at the request of funders and are in the final stages of approval (see attached list in Budget Worksheet). KFG has successfully completed the first phase of their fundraising campaign and has left to raise the remaining \$495,000 from individual one-time gifts and with revenue generated by the social enterprise catering and contract meals service. Funding from the San Marcos Foundation will support the purchase of equipment used in the culinary job training and hunger relief programs.

KFG is uniquely positioned to carry out this new project because they are at the forefront of tackling both the unemployment and hunger crisis in a sustainable way. Rather than giving these populations a hand-out, KFG is giving them a hand-up to become self-sufficient members of society. KFG is tackling the unemployment problem head-on by partnering with the County Probation Office, shelters and crisis centers serving foster youth, veterans and the homeless, so that the neediest individuals with high potential are identified to become successful in a culinary career. In just under two years, KFG has had a proven track record of success as evidenced by their strong job training and food rescue program outcomes. Unlike food banks and other hunger relief agencies, KFG has the capacity to make better use of the donated food to make healthier meals and distribute them to the populations that need it most. Meals in San Marcos will be primarily distributed to at-risk youth and homebound seniors.

KFG has already met with the San Marcos Mayor and city officials and has given them a tour of the proposed site of the project. Support from the San Marcos Community Foundation will strengthen collaboration between KFG, the City of San Marcos and its residents to more effectively reach the goals of reducing poverty, hunger and unemployment in the region.

Grants Manager
San Marcos Community Foundation

San Marcos, CA 92069

Dear Mr. Gordon:

I write on behalf of Leichtag Foundation in support of Kitchens for Good's (KFG) proposal to the San Marcos Community Foundation for their expansion to San Marcos.

KFG has been a pivotal player in reducing food waste, providing access to healthy foods for the hungry, and providing workforce development in the culinary industry. The addition of a new kitchen facility will greatly expand KFG's reach and impact.

In the last two years, KFG has rescued 22,177 pounds of food and turned that into 20,230 meals for the hungry. They've trained 85 students for culinary jobs and have placed 90% of them in full-time jobs, earning an average wage of \$13/hr.

The mission of Leichtag Foundation is to advance self-sufficiency, sustainability, and stimulate social entrepreneurship in coastal North San Diego County. We have been working with the Kitchens for Good team since their project's inception in 2014. We are pleased with the organization's outcomes and have committed \$2.7M innovative investment dollars toward securing the new facility.

This new kitchen will bring multiple benefits to the residents of San Marcos, will bolster the local economy and reduce poverty and hunger in the region. We commit our full support and highly recommend this project for funding from the San Marcos Community Foundation.

Sincerely,

Charlene Seidle
Executive Vice President

Dear Applicant:

We are pleased to inform you that upon review of your application for tax exempt status we have determined that you are exempt from Federal income tax under section 501(c)(3) of the Internal Revenue Code. Contributions to you are deductible under section 170 of the Code. You are also qualified to receive tax deductible bequests, devises, transfers or gifts under section 2055, 2106 or 2522 of the Code. Because this letter could help resolve any questions regarding your exempt status, you should keep it in your permanent records.

Organizations exempt under section 501(c)(3) of the Code are further classified as either public charities or private foundations. We determined that you are a public charity under the Code section(s) listed in the heading of this letter.

For important information about your responsibilities as a tax-exempt organization, go to www.irs.gov/charities. Enter "4221-PC" in the search bar to view Publication 4221-PC, Compliance Guide for 501(c)(3) Public Charities, which describes your recordkeeping, reporting, and disclosure requirements.

Future developments. Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at www.irs.gov/ty9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)

• Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)

• Form 1099-C (canceled debt)

• Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding?* on page 2.

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting?* on page 2 for further information.

Independent Auditors' Report

To the Board of Directors
Kitchens for Good
San Diego, California

We have audited the accompanying financial statements of Kitchens for Good (a nonprofit organization) which comprise the statement of financial position as of June 30, 2016, the related statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to error or fraud. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Kitchens for Good as of June 30, 2016, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Note 1: Organization

Kitchens for Good (the "Organization"), is a California non-profit organization that was incorporated in 2014. Located in San Diego, California the Organization's mission is to break the cycles of food waste, poverty and hunger through innovative programs in workforce training, healthy food production, and social enterprise. Each of the Organization's programs are described as follows:

Project Launch: The organization conducts a thirteen-week culinary job training program for populations that are considered to be difficult to employ: youth who have aged out of the foster care system, individuals who have previously been incarcerated and adults who are underemployed and lack education. Graduates receive technical culinary education, industry certification, and internship and job placement services at no cost to the individual. The organization takes a "whole-person" approach to vocational training, incorporating culinary arts, nutrition education, resume writing, and financial literacy. As part of the program, students give back to the community by preparing nutritious meals out of rescued and donated food for hunger relief partners.

Project Kitchen: This is the Organization's full service catering and events social enterprise. Project Kitchen is a revenue generating program that provides healthy, locally sourced meals to the Organization's non-profit partners, senior center facilities, corporations and individuals. Project Kitchen's most important role is the impact it has on the Project Launch students and graduates. It provides them with educational lessons, mentor ship, real world experience and job opportunities. The Organization is dedicated to a business model that balances organizational sustainability with mission effectiveness. By committing to sustainability in every aspect of the Organization, including local food sourcing and alternative revenue streams, the Organization will remain resilient to enable growth and to have a greater impact on hunger and self-sufficiency in the community.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting: The financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2: Summary of Significant Accounting Policies (Continued)

Financial Statement Presentation: The Organization reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets, based on the following criteria:

Unrestricted net assets represent expendable funds available for operations that are not otherwise limited by donor restrictions.

Temporarily restricted net assets consist of contributed funds subject to specific donor-imposed restrictions contingent upon specific performance of a future event or a specific passage of time before the Organization may spend the funds or recognize the support.

Permanently restricted net assets represent those assets contributed to the Organization where the original dollar value is to remain in perpetuity as a permanent fund of the Organization.

Cash and Cash Equivalents: The Organization considers all highly liquid investments available for current uses with an initial maturity of three months or less to be cash equivalents.

The Organization received restricted donations for the purchase of long-term assets. Cash in the amount of \$123,000 is designated for the purchase of noncurrent assets.

The Organization maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Organization has not experienced any losses in such accounts. Management believes that the Organization is not exposed to any significant credit risk with respect to its cash.

Accounts Receivable: The accounts receivable arise in the normal course of operations. It is the policy of management to review the outstanding receivables at year end, as well as the bad debt write-offs experienced in the past, and establish an allowance for doubtful accounts for uncollectible amounts. No allowance was considered necessary at June 30, 2016, because management believes that all amounts are collectible.

Contribution Receivable: Contributions are recognized when the donor makes a promise to give to the Organization that is, in substance, unconditional. Management provides an allowance for uncollectible amounts through a valuation allowance based on historical collections and its assessment of the current status of individual receivables. Accordingly, there was no allowance for doubtful accounts.

Inventory: Inventory consists of raw food and cooking ingredients. Cost is determined by the first-in, first-out (FIFO) method.

Note 2: Summary of Significant Accounting Policies (Continued)

Property and Equipment: Acquisitions of property and equipment of \$2,500 or more are capitalized. Property and equipment are stated at cost, or if donated, at the approximate fair market value at the date of donation. Depreciation is computed using the straight-line method over the estimated useful lives.

Revenue Recognition: The financial statements are presented on the accrual method of accounting. Under this method of accounting, revenues are recognized when earned.

Contributions: Contributions are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions.

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Contributions designated for future periods or restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support. If a restriction is fulfilled in the same period in which the contribution is received, the support is reported as temporarily restricted and then released from restriction in the same period.

In-kind Donations: In-kind donations consist of donated food and equipment. Contributions of donated goods are recorded at their fair values in the period received. The Organization recorded in-kind contributions totaling \$28,984 of inventory and \$1,975 of computer expense for the year ended June 30, 2016.

In addition, volunteers have donated significant amounts of their time to the Organization; these donated services are not reflected in the financial statements since these services do not meet the criteria for recognition as contributed services.

Functional Allocation of Expenses: The Organization allocates its expenses on a functional basis among its various programs and support services. Expenditures which can be identified with a specific program or support service are allocated directly, according to their natural expenditure. Costs that are common to several functions are allocated among the program and supporting services on the basis of time records, space utilized, and estimates made by the Organization's management.

Marketing: Marketing expenses are charged to expense as incurred. Marketing expense was \$25,578 for the year ended June 30, 2016.

Income Taxes: The Organization is a not-for-profit organization exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and Section 23701(d) of the California Revenue and Taxation Code.

Note 2: Summary of Significant Accounting Policies (Continued)

Income Taxes (Continued): The Organization has analyzed its tax positions taken for filings with the Internal Revenue Service and the State of California. The Organization believes that its income tax filing positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the Organization's financial condition, results of operations, or cash flows. Accordingly, the Organization has not recorded any tax assets or liabilities, or related accruals for interest and penalties for uncertain income tax positions at June 30, 2016.

All tax exempt entities are subject to review and audit by federal, state and other applicable agencies. Such agencies may review the taxability of unrelated business income, or the qualification of the tax-exempt entity under the Internal Revenue Code and applicable state statutes. Currently there are no audits of the Organization's returns in process. In general, the Organization's federal and state income tax returns remain open for the prior three and four years, respectively.

Note 3: Note Payable

On March 3, 2016, the Organization entered into a loan agreement with an unrelated foundation for \$36,000. The loan is unsecured and carries an interest rate of 4% maturing on February 23, 2019. Accrual of interest is deferred until January 1, 2017. Monthly installments of \$1,500 will begin on January 15, 2017 and end on February 23, 2019, at which time all remaining unpaid interest and principal shall be paid in full. As of June 30, 2016, the outstanding principal balance is \$36,000.

Principal payments for the years ending June 30 follow:

2017	\$	6,948
2018		17,154
2019		<u>11,898</u>
	\$	<u>36,000</u>

Note 4: Temporarily Restricted Net Assets

Temporarily restricted net assets consist of the following as of June 30, 2016:

Kitchen remodel	\$	73,000
Vehicle purchase		50,000
Career coach salary		<u>30,000</u>
	\$	<u>153,000</u>

Note 5: Commitment

In September 2015, the Organization entered into a lease for office, kitchen and event space under a five-year operating lease agreement. The monthly base rent is \$11,667 and will remain this amount for the duration of the lease term. In addition to the base rent, the agreement calls for real estate taxes and percentage rent which is calculated as 8% of gross catering, events and meal contract sales for each fiscal year. Payments of percentage rent are due October 15, 2016, September 30, 2017, September 30, 2018, September 30, 2019 and October 15, 2020. The unpaid balance of accrued percentage rent as of June 30, 2016 totaled \$49,592.

Future minimum base lease payments under the non-cancelable operating leases for the years ending June 30 follow:

2017	\$	140,004
2018		140,004
2019		140,004
2020		140,004
2021		<u>35,001</u>
	\$	<u><u>595,017</u></u>

Note 6: Subsequent Events

The Organization has evaluated subsequent events after the statement of financial position date of June 30, 2016 through the report date, which is the date the financial statements were available to be issued. Management is not aware of any events that would require adjustment to, or disclosure in these financial statements.

<u>Briefly</u> describe your request for funds (to be expanded upon in narrative for regular grant): Interfaith Community Services respectfully requests \$10,000 from the San Marcos Community Foundation to provide programmatic support for North County Senior Connections (NCSC). NCSC is a collaborative effort between Dreams for Change, the Rancho Santa Fe Foundation, and Interfaith with the goal of combatting isolation, loneliness and poor nutrition among vulnerable, low-income seniors, as well as improve their access to community resources. The program provides hot, nutritious, affordable meals, a variety of fresh, donated produce for participants to take home, socialization among participants, and speaker presentations.		
<u>Briefly</u> describe the significance of your request to the San Marcos community: Transportation and access to services are two major obstacles that many seniors face, especially in a geographically large area like North County. NCSC brings the meals and services to where seniors live and congregate. And as two of these locations are in San Marcos (at Palomar Estates East and West), approximately 40% of meals served by NCSC have benefitted senior residents in the San Marcos community.

Interfaith Community Services Proposal to the San Marcos Community Foundation

The primary mission of Interfaith's comprehensive programs is to provide a pathway to self-sufficiency to low-income, homeless, and vulnerable individuals and families. From its inception, Interfaith has assisted frail, isolated and vulnerable seniors through its social services programs. In 1997, Interfaith's Senior Services program was created to specifically empower seniors to lead more independent lives through the provision of emergency housing, housing for aging veterans and seniors with mental illness, nutrition assistance (daily hot meals and take-home emergency food supplies), and minor home safety repairs. The overarching goal of our Senior Services program is to build community among North County seniors while simultaneously enhancing wellness and food security they age.

Last year alone, through our comprehensive senior programs,

- 2,558 received food assistance
- 1,432 were connected to information and referral services,
- 169 received transportation assistance
- 619 received case management services
- 332 received assistance with legal documents such as IDs and Birth Certificates
- 456 received housing or shelter assistance
- 219 were provided access to medical and counseling services

North County Senior Connections (NCSC) is a ground-breaking program implemented in 2014 as an enhancement to Interfaith's comprehensive Senior Services activities. The overall goal is to combat isolation, loneliness and poor nutrition among low-income seniors, as well as improve their access to community resources. The program provides hot, nutritious, affordable meals, a variety of fresh, donated produce for participants to take home, socialization among participants, and speaker presentations. With the goal to "Connect, Enrich, Encourage and Entertain" our clients, we offer a wide spectrum of topics including physical and mental fitness, entertainment, games, animals, local attractions, safety, books, attendee experiences, children visits, and home beautification.

The NCSC program encourages seniors to enjoy a healthy well-balanced meal while engaging in activities and fellowship with other seniors in their community. NCSC is operated from a mobile food truck, *Thyme Together*, which enables Interfaith to bring nutritious meals to seniors who may not have access to reliable transportation. The current schedule is as follows: Mondays at Vista Village, Tuesdays at Palomar East in San Marcos, Wednesdays at St. Francis of Assisi in Vista, Thursdays at Palomar West in Marcos, and Fridays at Rancho Calevero in Oceanside.

The meals also provide an opportunity to connect vulnerable seniors to vital community resources, in-house case management as well as volunteer opportunities. In addition, Community Support and Health Services are provided to seniors participating in NCSC through case managed social services including: connections to free minor home repairs, emergency financial assistance, ongoing support service contacts to help seniors address issues in their lives, referrals to local health and wellness nonprofits, and basic health risk assessments and coverage connections provided by health workers.

According to surveys taken by our senior participants, the NCSC lunch program has played a role in improving their quality of life and promoting a healthy lifestyle. Since attending the lunches, 92% of seniors agreed or strongly agreed that the lunch program had a positive effect on their lives, 84% indicated that the program gave them something to look forward to each week, 72% felt happier with their life, and 69% thought about ways to take better care of their health.

For some of those surveyed, the socialization and fellowship gained from the lunches was more important than the food. Many seniors shared responses that illustrate the socialization impact of the lunches, such as: "I have depression and often do not want to be around other people. Because this lunch is convenient, I often coax myself to come, and when I get here, I enjoy the conversation and company."

Another senior said: "I was a recluse and very unhappy and lonely [before coming to this program.] Now I feel very alive, interested in people who are so pleasant." A senior volunteer commented: "[Volunteering has improved] my mental health. It keeps my endorphins flowing. I enjoy giving but receive so much from the program."

Over the course of the next year, NCSC will continue to improve the health and wellness of vulnerable and low-income seniors in North County by providing access to healthy food while enhancing social connectedness. The proposed program goals include: serve 5,000 meals to 250 unduplicated vulnerable seniors over the 12 month grant period; 70% of participants will report that meals and resources provided by the Senior Connections program have improved their nutritional security; and 70% of participants will report that socialization, supportive services and case management through the Senior Connections program have improved their quality of life.

Project Name: Supporting family caregivers of individuals with dementia in the San Marcos community Date Submitted: 7/5/17	Total # of people served: 35,000 Total # of San Marcos residents served: 500	Amount Requested: \$10,000
Non-Profit Organization Name and Address, Website Alzheimer's San Diego 6632 Convoy Court http://www.alzsd.org/	Contact Person – Name, Title & Phone, email Jessica Empeño, MSW Vice President, Programs & Family Services jempeno@alzsd.org , 858-966-3305	
Briefly describe your request for funds (to be expanded upon in narrative for regular grant): Alzheimer's disease can be emotionally, physically and financially devastating for families, which is why Alzheimer's San Diego is dedicated to ensuring every family receives the assistance they need without worry of cost. While there is currently no treatment or cure, research has shown that taking advantage of supportive services can significantly improve quality of life for the person with the disease and their caregiver. Alzheimer's San Diego provides a lifeline for families by offering a comprehensive suite of free programs. With your help, Alzheimer's San Diego can ease the burden of local families by ensuring the sustainability of these crucial programs. Through this project, San Marcos families will have access to personalized one-on-one support by phone or in-person as well as support and discussion groups located in San Marcos and surrounding areas. These free programs wouldn't be possible without support from foundations like yours.		
Briefly describe the significance of your request to the San Marcos community: Today there are nearly 65,000 San Diegans suffering from Alzheimer's or another type of dementia; a number that is expected to more than double in the next 15 years. Approximately one-third of the San Diegans with Alzheimer's disease reside in the North Inland and North Coastal regions of San Diego County. North County is also home to the largest percentage of unpaid family caregivers in the County (31%), who provide countless hours of care with an estimated economic value of \$600 million. North County is also expected to see significant growth in those affected by dementia since it is home to the largest proportion of adults over the age 55 (age being the biggest risk factor for a diagnosis of dementia). It is an epidemic for which until a cure is found, the best medicine is good care, support, information and resources for those living with the disease and those who care for them.

With estimates that approximately 80% of those living with Alzheimer's disease are being cared for at home, community-based programs and services are essential to supporting the well-being of the families that provide that care. It is the family caregivers that bear the long term burden of Alzheimer's disease.

Caregivers not only face many responsibilities in caring for someone with dementia, from meal preparation and managing health needs to personal care and constant supervision, but they must also cope with fluctuating personality, behavior and mood changes. Eventually, everyone with dementia will require 24-hour care and supervision. This reality often results in caregivers overlooking their own needs and well-being. Research has shown that caregivers experience higher levels of stress, depression and anxiety, which can translate to increased risk for poor physical health and harmful behaviors. The health care costs to San Diego caregivers due to the physical and emotional impact of caregiving were approximately \$77.7 million in 2013 (Alzheimer's Disease and Other Dementias in San Diego County Report by the County of San Diego Health and Human Services Agency, March 2016).

Alzheimer's San Diego knows that helping families better understand the disease and what to expect can lead to healthier coping and a sense of empowerment. Alzheimer's San Diego currently offers a number of free programs that enhance the well-being and quality of life for those coping with the changes brought on by the progressive brain disease. By providing San Marcos with community-based support, family caregivers will feel more connected, more hopeful and better equipped to provide care in the home.

Personalized one-on-one support: The Alzheimer's San Diego team of experienced clinical professionals serve as a resource to the community, helping families understand the disease and its symptoms, assisting with community resources, connecting families to needed services and providing emotional support. These experts are available to answer questions, provide in-depth guidance and personalized consultation or facilitate family meetings – whatever is needed most to help a caregiver navigate the challenging journey of caring for someone with Alzheimer's disease. Providing resources and practical support, combined with education and emotional support can help caregivers provide the best possible care for dementia clients, while also ensuring their own health and well-being.

San Marcos residents are encouraged to access phone-based support as needed and can also meet with social workers in-person at the Alzheimer's San Diego office located in Kearny Mesa. Over the next year, Alzheimer's San Diego will record at least 200 contacts with San Marcos residents through phone and in-person support.

Support and Discussion Groups: Alzheimer's San Diego currently offers more caregiver support groups than any other local provider. Groups provide regular opportunities for caregivers to find comfort, gain hope and strength, while learning from other caregivers who understand what they are going through. While most of the groups are open for any caregiver to attend, several are specialized, such as the Men's Group, Caregivers under 60, Spanish Speaking Care Partners, Lewy Body and Frontotemporal Group, Young Onset, Bereavement and more. Of additional benefit to caregivers are the six groups that provide on-site respite during group meetings, allowing caregivers to attend without worry of supervision for their loved one with dementia. All groups are led by Alzheimer's San Diego clinicians and experienced volunteers who have completed the Alzheimer's San Diego Group Leader Training Program.

With groups offered throughout the County, San Marcos residents can choose from any of the 37 community Support and Discussion Groups. Alzheimer's San Diego offers two monthly Support and Discussion Groups in San Marcos, available in both English and Spanish in addition to offering free respite care at one location. Over the next year, Alzheimer's San Diego will serve 400 attendees through the two groups located in San Marcos, reaching 30 first-time attendees. Conveniently located in nearby areas, San Marcos residents also have access to groups throughout the North County Inland region, including Escondido and Vista.

OLD BUSINESS

1. **GRANT AWARD HISTORY** – Noted and filed.

NEW BUSINESS

2. MINI GRANT APPLICATION PROPOSALS

Board members discussed the Mini Grant application proposals. President Monahan did not see in the proposal from REINS whether the 5 students are from San Marcos. Commissioner Nuttall said that if they fund this proposal they add a condition that the 5 students are residents of San Marcos. The application from Mission Hills High School Cross Country Boosters was deferred due to the regular grant application from Mission Hills High School Track and Field Booster Club. Board members decided not to fund the proposal from Burn Institute.

BOARD VICE PRESIDENT MONAHAN MOVED TO AWARD \$1,500 TO REINS (RIDING EMPHASIZING INDIVIDUAL NEEDS & STRENGTHS). BOARD MEMBER NUTTALL SECONDED. MOTION PASSED BY UNANIMOUS VOICE VOTE.

AYES: MONAHAN, NUTTALL
