NEW BUSINESS

7a) - The Laurels Development-Traffic Calming Recommendations

Engineering staff received traffic safety concerns from San Marcos residents living in the Laurels development, situated on the westerly part of the City. Residents are concerned with unsafe vehicle speeds in their community. They feel that the 25 MPH speed limits are rarely being followed. With no established HOA for the community, residents have reached out to social media to encourage safer speeds through the neighborhood. Residents are requesting for the installation of speeds bumps to help with reducing vehicular speeds in their community. Based on the residents concerns, Engineering staff initiated a traffic safety evaluation of the neighborhood to determine if traffic calming measures may be warranted.

Conclusion and Recommendations:

Engineering staff request that the Traffic Commission accept staff's recommendations for the following improvements:

- Installation of additional 25 MPH speed limit signs and pavement markings on Acacia Drive and Sequoia Street.
- Deployment of the City's mobile speed radar trailers to increase speed awareness and help build compliance in the neighborhood.

Commissioner Bridge makes a motion to accept the minutes as recorded. Commissioner Masterson seconds the motion. Motion carries.

AYES: COMMISSIONERS: HANSEN, COLLINS, HOAGLIN, BRIDGE, ERICKSON, MASTERSON and RICO

7b) - Melrose Drive-Request for Nike Shared Lane Markings (Sharrows)

Engineering staff received safety complaints on Melrose Drive between San Elijo Road and Boulderidge Drive. Residents feel unsafe while riding their bicycles on Melrose Drive, which permits bicycle travel to share the roadway with vehicles. Bicyclist are also concerned with motorist honking at them while taking full control of the lane. Residents are requesting the City to install bike shared lane markings (Sharrows) to indicate dual use of the travel lane for both bicycles and vehicles. Based on these concerns, Engineering staff initiated a traffic safety evaluation on Melrose Drive to determine if the sharrows pavement markings would be warranted.

Engineering staff reviewed resident's request for bike shared lane markings (sharrows) on Melrose Drive. Per the California Manual of Uniform Traffic Control Devices (CAMUTCD), Section 9C.07, shared lane markings may be used to:

- a) Assist bicyclist with lateral positioning in a shared lane with on-street parallel parking in order to reduce the chance of a bicyclist's impacting the open door of a parked vehicle
- b) Assist bicyclist with lateral positioning in lanes that are too narrow for a motor vehicle and bicycle to travel side by side within the same traffic lane.
- c) Alert road users of the lateral location of bicyclist are likely to occupy within the travel lane
- d) Encourage safe passing of bicyclist by motorist, and
- e) Reduce the incident of wrong-way bicycling
- f) Assist bicyclist with lateral positioning with a traffic circle or roundabout
- g) Supplement a signed bicycle route that is identified as a class III bicycle facility
- h) Encourage the lateral positioning bicyclist away from on-street angled parking, and
- i) Indicate that a bicycle can travel straight through a right-turn lane or left-turn lane only

Conclusion and Recommendations:

Engineering staff request that the Traffic Commission accept staff's recommendations for the installation of bike shared markings (Sharrows) on Melrose Drive between San Elijo Road and Boulderidge Drive. The sharrows will be installed within the roadway segment (6 feet from face of curb) adjacent to the existing "BICYCLES MAY USE FULL LANE" Regulatory signs currently installed within the public right-of-way.

Engineering staff also recommends selective enforcement by the Sheriff's department of the "BICYCLES MAY USE FULL LANE" regulatory signs and the new sharrows pavement markings on Melrose Drive.

Commissioner Erickson makes a motion to decline the proposed recommendations by engineering staff and propose further studies. Commissioner Collins seconds the motion. Motion carries as follow: Decline Engineering staff's recommendations for the installation of bike shared lane markings (Sharrow) on Melrose Drive between San Elijo Road and Boulderidge Drive. Request Engineering staff for further studies and data collection on speeding and present recommendations at a future meeting.
