June 30, 2012

Honorable Mayor and Members of the City Council:

It is my pleasure to submit the Fiscal Years 2012/13 through 2014/15 Operations and Maintenance Budget (O&M) along with the seven-year Capital Improvement Program Budget (CIP) for the City of San Marcos.

It appears that the worst of the recession is behind us and the local economy is showing signs of recovery although gradual and uneven. The outlook for the U.S. reports that the Gross Domestic Product (GDP) and job formation will remain weak in the near-term, mirroring conditions that have prevailed for the last two years. GDP growth is forecasted to be 2.4% by the end of 2013, increasing to 3.4% in 2014. In California, slow and steady gains are anticipated throughout 2012. More anticipated growth in 2013 and 2014 could see California's unemployment rate decrease to 7.7% by the end of 2014. It has been suggested that the housing market may have bottomed out and that a recovery is underway. Foreclosures appear to have peaked and existing home sales are on the rise. Gradually improving labor markets, a rebound in household formations and record low mortgage rates have helped bolster this recovery.

The City faces several long-term financial challenges, including the funding of major infrastructure needs, worsened by the elimination of the City's Redevelopment Agency, and the continuing burden of rising pension costs. A large portion of City assets do not have dedicated funding sources that enable the City to keep up with their required maintenance, improvement and replacement. Consideration of recommendations for funding future capital maintenance and replacement costs will be a top priority in the coming fiscal year.

While we technically do not engage in zero base budgeting, departments are required to justify each and every appropriation requested. Management literally goes through each line item to assess the need and validity as well as the assumptions used. The direction to staff at the onset of the budget process was to maintain the fiscal years 2012/13 and 2013/14 expenditures at or below the level that is currently approved in the 2011/2012 budget. Next year's proposed budget is \$2.1 million (3.3%) lower than the current year amended budget. Primarily, savings were incurred as a result of the restructured employee compensation programs that went into effect January 1, 2012. Slight increases are expected in facilities maintenance, public safety and community service programs.

Several factors are taken into consideration when projecting both revenues and expenditures. For each account, we look at the trend for the past several years, the current year to date as well as where we expect to end the year at, the economy, development activity both current and projected, inflation, new operating requirements (i.e. additional parks to maintain), new revenue sources (i.e. new tenants, new hotels) and other pertinent factors. The budget reflects all known and estimated increases in City cost.

## GENERAL FUND

In summary, by the end of the third year of the next budget cycle, General Fund reserves will be at \$53.2 million. The excess of revenues over expenditures in the next three years and the increase in revenues and expenditures are as follows:

	<u>FY 2012/13</u>	<u>FY 2013/14</u>	<u>FY 2014/15</u>
Excess of Revenues Over Expenditures	\$81,867	\$47,647	\$21,284
Inc (Dec) in Revenues	\$(921,974)	\$(57,893)	\$1.3 million
% Inc (Dec) in Revenues	(1.42%)	(.09%)	1.98%
Inc (Dec) in Expenditures	\$(2.1) million	\$(23,673)	\$1.3 million
% Inc (Dec) in Expenditures	(3.26)%	(.04)%	2.03 %

Incorporated in our revenue projections are transfers from the Creekside Marketplace Enterprise (CM) Fund in the amounts of \$5, \$4.25, and \$4.8 million in fiscal years ending 2013, 2014 and 2015, respectively. This Fund accounts for the activity of the Creekside Marketplace Shopping Center. Over the next several years, the Center will generate from \$3.5 to \$3.7 million in net revenues to support the General Fund. Transfers from this Fund to the General Fund are effected annually to the extent necessary to balance operations.

Updated current information, such as pension contribution requirements, health insurance premiums, salaries based on the latest staffing levels and pay ranges, workers' compensation, liability and property insurance, and departmental service needs were some of the more significant changes to the General Fund budget.

### ***Personnel Costs:***

Salaries and benefits represent approximately 48% of the General Fund's total budget. Built in our estimates for salaries and benefits are scheduled merit step increases for eligible employees which can range from 0% to 3% in accordance with the City's new compensation program and labor contracts, and an increase between 3% to 11.0% in each of the next three years for health insurance.

The City participates in the California Public Employees Retirement System (PERS). Due to the level of benefits provided by this plan and the recent significant portfolio losses realized by PERS, rates will continue to increase. In addition to our annual increase based on PERS actuarial estimates, PERS has recently announced they are decreasing their earnings estimates starting in fiscal year 2013/14 which will impact PERS rates to employers. As a result, San Marcos' rates are increasing in fiscal year 2013/14 by close to 2.6% and 4% for miscellaneous and safety employees respectively, which could equate to over \$500,000 in additional employer contribution costs. Additional increases in the out years are possible.

Needless to say, major restructuring of the employee compensation program and pension benefits during fiscal year 2011/12 significantly contributed to the overall health of the General Fund and

cost containment in the future. The current labor contracts lapse at the end of 2013 and any changes to the compensation program will be effective as of January 1st of 2014.

***Other Expenditure Highlights:***

Law enforcement cost represents \$14.8 million (23%) of the General Fund operating budget. The overall sheriff contract cost for FY 12/13 is estimated to increase by approximately \$524,912 (3.7%), and 3% and 3.5% in the following two years thereafter which allows for salary escalations and other inflationary factors. The law enforcement contract expired at the end of FY 2011/12 and is currently being negotiated.

Major repairs to city facilities that can no longer be deferred add up to close to \$705,150 in fiscal year 2012/13. The repairs include City Hall interior and entry repairs, and pool and various gymnasium repairs. Further detail can be found on page 43 of the proposed operating budget.

***Revenues:***

Sales taxes, our top revenue source, represent 21% of next year's General Fund revenues. The City's sales tax consultant estimates that the current year (FY 11/12) receipts will be \$159,000 or 1.2% below the FY 11/12 budget of \$13.8 million. For FY 12/13, Sales tax is budgeted at \$14 million, an increase of \$289,000 or 2.1% from the previous year. The following year (FY 13/14) will increase by \$564,000 million to \$14.7 million. It is expected that by the third year of the budget cycle, this revenue source will climb to \$15 million, \$1.3 million below the total collected in fiscal year 2006/07 before the economic recession.

Property taxes at \$7.8 million represent 12% of projected revenues and are projected to slightly increase in the first year with a slight increase of 1% and 2% in the 2013/14 and 2014/15 fiscal years, respectively. The same assumptions have been made for property taxes in-lieu of MVLFF which corresponds to 8.6% (\$5.65 million) of our revenue sources.

Transient occupancy taxes are expected to end the current FY 11/12 at \$703,819 which is \$16,663 or 2.4% over budget. This is the result of the new Residence Inn that opened during the prior fiscal year. Transient occupancy taxes for FY 12/13 are estimated at \$716,746, an increase of 4.3% over prior year budget. The following years project slight increases of 1.7% and 1.8%, respectively.

Development services fees, building permits and other permits are projected to be slightly higher in FY 12/13 than the current year amended budget. Projections for FY13/14 and FY14/15 are at slightly lower levels due to less development than what we are currently experiencing. The estimates are based on projected development or what we know is coming down the pipeline. Potential revenue from speculative projects are not included in these projections.

**CAPITAL IMPROVEMENT PROJECTS BUDGET**

The City prepares a seven-year capital improvement program (CIP) budget annually. This program includes capital improvements to enhance street circulation, parks and recreation, drainage systems, interchange improvements and other significant capital outlays. It is essentially a list of projects that we hope to complete over the next several years depending on available resources.

The proposed seven year CIP totals \$314 million, \$122 million of which is funded. Redevelopment Agency bond proceeds, Federal grants and Transnet are the major source of funding for these infrastructures. Other funding sources include private developer obligations and public facilities fees.

Over the past 30 years, the City Redevelopment Agency (RDA) provided a large source of funding for capital improvements within the City to eliminate blight and improve economic conditions. RDA funds have also been used to build a number of critically needed affordable housing projects. This dissolution of the RDA in February 2012 eliminated a significant source of revenue for the types of capital infrastructure projects that normally fall within the responsibility of the General Fund.

## CONCLUSION

A combination of factors over the past several years such as cost containment, expense control, the Creekside Shopping Center, and one-time revenues have contributed to the City's overall strong financial condition. A solid foundation exists for providing quality services while still preparing for the future. Through streamlined processes, new work procedures, and better use of technology, we have been able to maintain critical programs and carry out important infrastructure projects.

We believe that our revenue estimates are conservative. Staff is working on several projects that may generate one-time revenues within the next three years. These one-time revenues are not yet built into our projections.

It is essential to remember that one-time revenues should not be relied upon to fund operations on an on-going basis. In addition, it is expected that current year revenues generated in the CM Fund will help us fund operations for the next three years thus leaving available fund balance to help establish funding necessary for the vehicle and equipment and/or facility replacement funds.

I would like to express my appreciation to the City Council for providing the leadership and support necessary to pursue and achieve our goals and to City staff for their commitment in providing top-quality services to the community. Our combined efforts are critical to the City's success.

Sincerely,

Jack Griffin  
City Manager

JG:LR

## #101104 - NON-DEPARTMENTAL/COMMUNITY PROGRAMS

### COMMUNITY PROGRAMS FUNCTION

This department budget outlines funds allocated by the City of San Marcos to various activities for purposes of promotional and community interest programs. This budget also allocates funding for Animal Control services which are provided under contract by the Escondido Humane Society and Household Hazardous Waste Collection services provided by the Cities of Vista and Poway.

EXPLANATION

## #101101 - ADMINISTRATION

### **FUNCTION**

The City Manager and his immediate staff are responsible for the general management of all City operations and personnel. This responsibility includes the enforcement of City Ordinances; the administration of City contracts and agreements; advising the City Council of legislative and administrative concerns; responsibility for intergovernmental relations; and providing overall fiscal management. The City Manager also acts as City Treasurer and Executive Director of the Public Facilities Authority, Public Financing Authority, Industrial Development Authority, California Mobilehome Park Financing Authority, and the San Marcos Successor Agency to the former Redevelopment Agency.

## #103034 - PUBLIC WORKS/FLOOD CONTROL/STORM DRAIN MAINTENANCE

### FUNCTION

Storm drain maintenance is a sub-function of the Public Works Street Maintenance Division and funding is for the purpose of providing all maintenance and monitoring of the City's storm drain system.

POSITIONS	FY 11/12	FY 12/13	FY 13/14	FY 14/15
Public Works Manager	0.20	0.20	0.20	0.20
Street Maintenance Supervisor	0.50	0.50	0.50	0.50
Street Maintenance Leadworker	1.00	0.75	0.75	0.75
Street Maintenance Worker II	1.50	1.50	1.50	1.50
Street Maintenance Worker I	1.25	1.25	1.25	1.25
<b>Totals</b>	<b>4.45</b>	<b>4.20</b>	<b>4.20</b>	<b>4.20</b>

### POSITIONS ALLOCATION SUMMARY

Positions formally reported under the Street Maintenance Division are now allocated as follows to better reflect how labor is being used for the various functions:

POSITIONS	Total	Streets	Storm Drain	Gas Tax
Public Works Manager	1.00	0.35	0.20	0.45
Street Maintenance Supervisor	2.00	0.50	0.50	1.00
Street Maintenance Leadworker	3.00	0.75	0.75	1.50
Street Maintenance Worker II	7.00	2.50	1.50	3.00
Street Maintenance Worker I	7.00	2.75	1.25	3.00
Traffic Signal & Lighting Supervisor	1.00	0.25	-	0.75
Traffic Signal & Lighting Technician	2.00	0.50	-	1.50
<b>Totals</b>	<b>23.00</b>	<b>7.60</b>	<b>4.20</b>	<b>11.20</b>

One Street Maintenance Leadworker is vacant and not funded.

One Street Maintenance Worker II is vacant and not funded.

\*The Percentage Change in Budget Column represents the percentage change from the FY 11/12 Budget Column to the FY 12/13 Budget Column.

\*\*As amended.

\*\*\*The Storm Drain Maintenance Division and the Storm Water Management Division were reported under the Flood Control/Water Utility Division prior to FY 09/10. The two new Divisions have been restated accordingly.

## #103035 - PUBLIC WORKS/PARKS AND LANDSCAPE

### FUNCTION

The Public Works Parks and Landscape Division is responsible for maintaining nearly 275 acres of park land and approximately 100 miles of parkways and medians along public right-of-ways within the City. This Division also maintains landscaping around the Civic Center, Senior Center, Safety Center, and the Public Works Yard, in addition to maintaining portions of the City's trail system and preparing City-owned athletic fields for daily use throughout the year.

The Division administers landscape maintenance contracts throughout the City. Private contractors perform landscape and irrigation maintenance in open space and common area landscaping within residential subdivisions and specific plan areas.

## #101103 - STORMWATER PROGRAM MANAGEMENT

### ***FUNCTION***

The Stormwater Program implements the San Diego Regional Water Quality Control Board (RWQCB) Order R9-2007-0001, a National Pollutant Discharge Elimination System (NPDES) permit that regulates stormwater discharges from public drainage systems. The Stormwater Program also facilitates communication and coordination with the environmental regulatory agencies.

## **#1040xx - DEVELOPMENT SERVICES**

### ***FUNCTION***

The Development Services Department consists of an administrative section and three divisions - Planning, Engineering, and Building and Safety. The Department coordinates development activity within the City of San Marcos to ensure the planned orderly growth & redevelopment of the City. Additional departmental responsibilities include economic development coordination & primary staff support to the San Marcos Economic Development Corporation & staff support to the affordable housing program.

#### **Building & Safety Division**

This division protects the life, property, and welfare of the community by enforcing Federal Laws, State Codes, and local Ordinances that regulate the type of construction, design, quality of materials, occupancy classification and maintenance of all buildings and structures within the City by reviewing plans and inspecting new construction of both private and municipal facilities. The Division is responsible for annexing new development and redeveloped properties into Community Facilities District 98-01 (Police) and Community Facilities District 2001-01 (Fire and Paramedic). The Division also inspects housing units for compliance with the Housing Code and maintains records of permits, plans, soils reports and structural calculations for public inspection in accordance with State Law. The Division uses staff, contractors and consultants to meet the workload demands of providing inspection and plan review services. The Division Director acts as the City Building Official and is responsible for the adoption and interpretation of applicable building codes and standards.

#### **Planning Division**

This division analyzes, plans, and recommends measures to protect existing resources and to ensure the orderly development of the community in a manner that will maintain a balance between the quality of life, the environment and the economic stability of the City. The division administers the City's General Plan and various zoning and environmental regulations and provides primary staff assistance to the Planning Commission. The division utilizes both staff and contract planning firms to process land use applications.

#### **Engineering Division**

The Engineering Division consists of four sections - Current Development, Traffic Engineering, Capital Improvement, and Engineering Inspection. The division administers & coordinates all aspects of engineering activities related to current development, the Capital Improvement Program (CIP) & associated inspection requirements. The Engineering Division also supervises consulting contract agreements, coordinates with CalTrans, SANDAG, prepares grant proposals for the planning and financing of capital projects, and administers assessment and reimbursement district proceedings. The director of the Engineering Division serves as the City Engineer. The Current Development section is responsible for the City's engineering review of private sector development projects, related public information, traffic, bridge, flood control, street lighting, and traffic signal facilities. This section also supervises consulting contract agreements for plan checking and public facilities planning and provides staff resources to the Planning Commission. The Traffic Engineering section is responsible for day-to-day management of traffic signal timing and the traffic management center; addressing citizens' traffic related concerns; recommending revisions to traffic control devices; maintaining City-wide speed surveys, traffic counts and accident databases; design implementation of traffic related capital improvement projects and provides staff resources to the Traffic Safety Commission. The Capital Improvement section is responsible for the site design and document preparation for the construction of capital projects. These projects include streets, traffic control devices, bridges, flood control, street lighting, park development, and City facilities. The Engineering Inspection section is responsible for inspection and related contract administration for capital improvement, inspection and acceptance of private development, public improvements and grading projects.

## #1050xx - FIRE

### FUNCTION

The Fire Department provides fire suppression, rescue, emergency medical services, fire prevention, and emergency preparedness services to approximately 95,000 citizens of the 33 square mile San Marcos Fire Protection District (SMFPD). The City of San Marcos comprises 24 miles of the SMFPD. The Fire Chief exercises operational control over the Department, under the general direction of the City Manager.

The Fire Department fields four engine companies, two full-time paramedic ambulances, and one ladder truck company from four fire stations. Suppression personnel cross-staff three brush engines to address the wildland fire threat prevalent in outlying areas of the City/District. The Department also operates a regional emergency services training facility.

POSITIONS	FY 11/12	FY 12/13	FY 13/14	FY 14/15

## **#105252 - LAW ENFORCEMENT**

### ***FUNCTION***

The City contracts for Law Enforcement services with the San Diego County Sheriff's Department. Law Enforcement services include patrol, traffic, community oriented policing, gang and narcotics details, detectives, clerical and supervisory personnel. In addition to operational costs associated with personnel and equipment, the Law Enforcement budget also includes facility support costs associated with the San Marcos station.

## #209 - HOME SPECIAL REVENUE FUND

### **FUNCTION**

This Fund was established to account for transactions related to the HOME grant provided by the Federal Government. The grant is used to fund the San Marcos Mortgage Assistance Program and the related administrative costs. In addition, the American Dream Downpayment Initiative (ADDI) funds which fall under the HOME Program for administration, are included in this Fund.

## **CAPITAL IMPROVEMENTS**

### ***FUNCTION***

This activity provides for funding and planning of various sources of financing for the City's capital improvement projects. The projects, listed in priority in each year's capital improvement schedule, represent those projects that staff has projected to start and have a major portion thereof completed during each fiscal year. Included in the budget is an estimated cost and the funding sources of each project for which there is funding for each of the fiscal years 2012/13 through 2018/19.

**Item Number:** 2013-1

**Title:** Twin Oaks Over the Hill/Copper Creek Street Improvements

**Project Code:** 88139

**Description:** Maintenance and monitoring of habitat mitigation areas associated with 4,300 feet of 5-lane divided street improvements along Twin Oaks Valley Rd between Village Drive (Rancho Coronado) and the easterly terminus of street improvements of the San Elijo Development.

**Justification:** Maintenance and monitoring of the habitat mitigation areas is required per the project's environmental reports.

**Item Number:** 2013-2

**Title:** Borden Road Street Improvements and Bridge Construction

**Project Code:** 88165

**Description:** Construct approximately 700 lineal feet of a 4-lane secondary arterial including a bridge across the Twin Oaks Valley branch of the San Marcos Creek and a 10' wide decomposed granite urban trail.

**Justification:** These improvements will complete an east-west traffic circulation north of Mission Rd. per the City's General Plan Circulation Element and improve access to the north entrance of Palomar College.

**Item Number:** 2013-4

**Title:** Interchange Improvements: Highway 78 at Nordahl Rd.

**Project Code:** 88150

**Description:** The City of Escondido, as the lead agency, will design and reconstruct Nordahl Road Bridge and modify the existing ramps. The project is partially in the City of San Marcos and the City's cost share is shown below.\*

**Justification:** The project is needed to improve the storage capacity of the left turn lane on the bridge and to increase traffic capacity, and provide adequate vertical clearance between the bridge and Hwy 78.

\*Project budget listed is for the City of San Marcos' portion of the project only. The total project costs is \$30.3 Million. Escondido is the lead agency & responsible for the portion within its jurisdiction (\$5 Million) and remaining costs to be funded through Caltrans.

**Item Number:** 2013-5

**Title:** SR-78 Eastbound Auxiliary Lane Improvement

**Project Code:** 88247

**Description:** Construct an eastbound auxiliary lane on SR-78 between Woodland Parkway and Nordahl Road including the widening of the Mission Road Undercrossing and an additional merging lane between Barham Drive on-ramp and the Nordahl Road on-ramp.

**Justification:** Improvements will relieve traffic congestion and improve traffic flow.

**Item Number:** 2013-8

**Title:** Grand Avenue Roadway & Drainage Improvements (Phase I)

**Project Code:** 88214

**Description:** **Phase I:** This phase includes the widening of the existing channel south of Grand Avenue, the creation of riparian habitat and grading of City lots. This project also includes the construction of a precast bridge over the widened channel for future extension to Linda Vista Drive.

**Phase II:** Realignment of Linda Vista Drive

**Justification:** Improvements are needed to relieve local flooding and development of site for City to lease commercial portions of property.

**Item Number:** 2013-10

**Title:** Coronado Hills Guardrails

**Project Code:** 88260

**Description:** The project will install and/or replace guardrails along Coronado Hills Dr. between Via Del Campo and Washingtonia Dr. and includes minor street improvements and grading necessary to install guardrails.

**Justification:** Coronado Hills Dr. serves as the main access road to the residences south of Washingtonia Dr. and the project will improve the roadway safety by reducing the potential and severity of motorists leaving the roadway.

**Item Number:** 2013-20

**Title:** East Mission Road Fiber Optic Project

**Project Code:** 88504

**Description:** The project will install a total of approximately 21,900 lineal feet of fiber optic communications cable, CCTV cameras and signal improvements on the above listed segments along major corridors including Mission Road, Woodland Parkway and Nordahl Road.

**Justification:** The project will improve signal timing coordination and enhance remote traffic flow monitoring. It will also close the missing links in the city's fiber optic communication network.

**Item Number:** 2013-22

**Title:** San Marcos Creek Specific Plan - Bent Avenue Bridge and Street Improvements

**Project Code:** 88263

**Description:** Replace the existing low water crossing with a 2-lane bridge over the San Marcos Creek including street improvements to transition back to the existing. The new bridge and street improvements includes a 6' sidewalk on the east and 10' trail on the west and bike lanes on both sides. Also included in the project is the reconstruction and signalization of the intersection of Bent Ave and Discovery Street.

**Justification:** Existing low water crossing floods during major storm events causing local flooding and requiring the road to be closed to through traffic.

**Item Number:** 2013-44

**Title:** Bicycle and Pedestrian Master Plan

**Project Code:** TBD

**Description:** The project will focus on completion of the bicycle and pedestrian network by identifying new routes to provide additional connectivity, identify deficiencies, provide recommendations for improvements to the existing network, and identify education and encouragement programs.

**Justification:** An updated Bicycle Master Plan is necessary to ensure City's eligibility for BTA grants, which requires an updated Bicycle Master Plan within the last five years at the time of grant application. The City's current Bicycle Master Plan was updated in 2005 and has expired. An updated Pedestrian and Bicycle Master Plan will provide safe mobility for non motorized users throughout the City of San Marcos.

**Item Number:** 2013-45

**Title:** Grand Avenue Sidewalk Improvements and Utility Undergrounding

**Project Code:** TBD

**Description:** **Phase 1:** Underground overhead utilities of these sections of Grand Avenue and replace existing non compliant pedestrian facilities from Via Vera Cruz to Linda Vista  
**Phase 2:** Underground overhead utilities of these sections of Grand Avenue and replace existing non compliant pedestrian facilities from Bent to Discount Tire.

**Justification:** Provide continuity for pedestrian traffic and resolve ADA issues. Facilitate future development along parcels that front this roadway

**Item Number:** 2013-48

**Title:** Power Failure Traffic Management Preparedness Project

**Project Code:** TBD

**Description:** This project will involve purchase and installation of back up power for the Traffic Management Center in case of an emergency power failure. It will also involve signal cabinet wiring between existing battery backup systems and signal controllers to receive alerts at the TMC when individual signal loses power.

**Justification:** Improve safety at critical intersections and ensure more efficient signal operations during a power failure.

**Item Number:** 2013-50

**Title:** Citywide Ethernet

**Project Code:** TBD

**Description:** This project will include specification, design, procurement, programming, installation, and integration/verification of all connected equipment to convert the existing City's communication network to an Ethernet based connection.

**Justification:** Converting to Ethernet based communication system will enable remote monitoring of multiple traffic control devices at an intersection (controller, CCTV camera, video detection, battery backup systems, conflict monitors) with least amount of fiber strands. It will help traffic management in a more efficient and cost effective manner.
